PRICE DESCRIPTION:

The published OPIS price per gallon for the OPIS Rack City shown above as published by OPIS on the date of delivery (the "Selling Price"). If the Selling Price date falls on a non-business day, then the Parties agree to use the OPIS price for the most recent prior business day. The OPIS price to be used will be obtained by referencing the "OPIS Closing Benchmark File" for the Selling Price Date. In this report, under the sub-heading "OPIS Gross Ultra Low Sulfur Red Dye Distillate Prices" there is a section titled "Additional Contract Summary Data – Effective xx/xx". The date for this data should match the Selling Price date. The correct price in this section is the "CONT UBD AVG", which stands for Contract Unbranded Average. The price shall correspond to the appropriate OPIS Rack City and product delivered.
